**Language acquisition in the context  
of traditional and contemporary culture in Norway**

**NORWEGIAN LITERATURE: LOCATION EXPERIENCE  
AND EUROPEAN PERSPECTIVES**

# WHY NORWAY AND EEA GRANTS?

## WHY NORWAY?

# participants

- Project participants (primary target group) students at bachelor level (19) and master level (11) immatriculated at Masaryk University in Brno, studying the programme **Norwegian language and literature** at Department of German, Scandinavian and Dutch studies (Masaryk University).

# Project partners

1

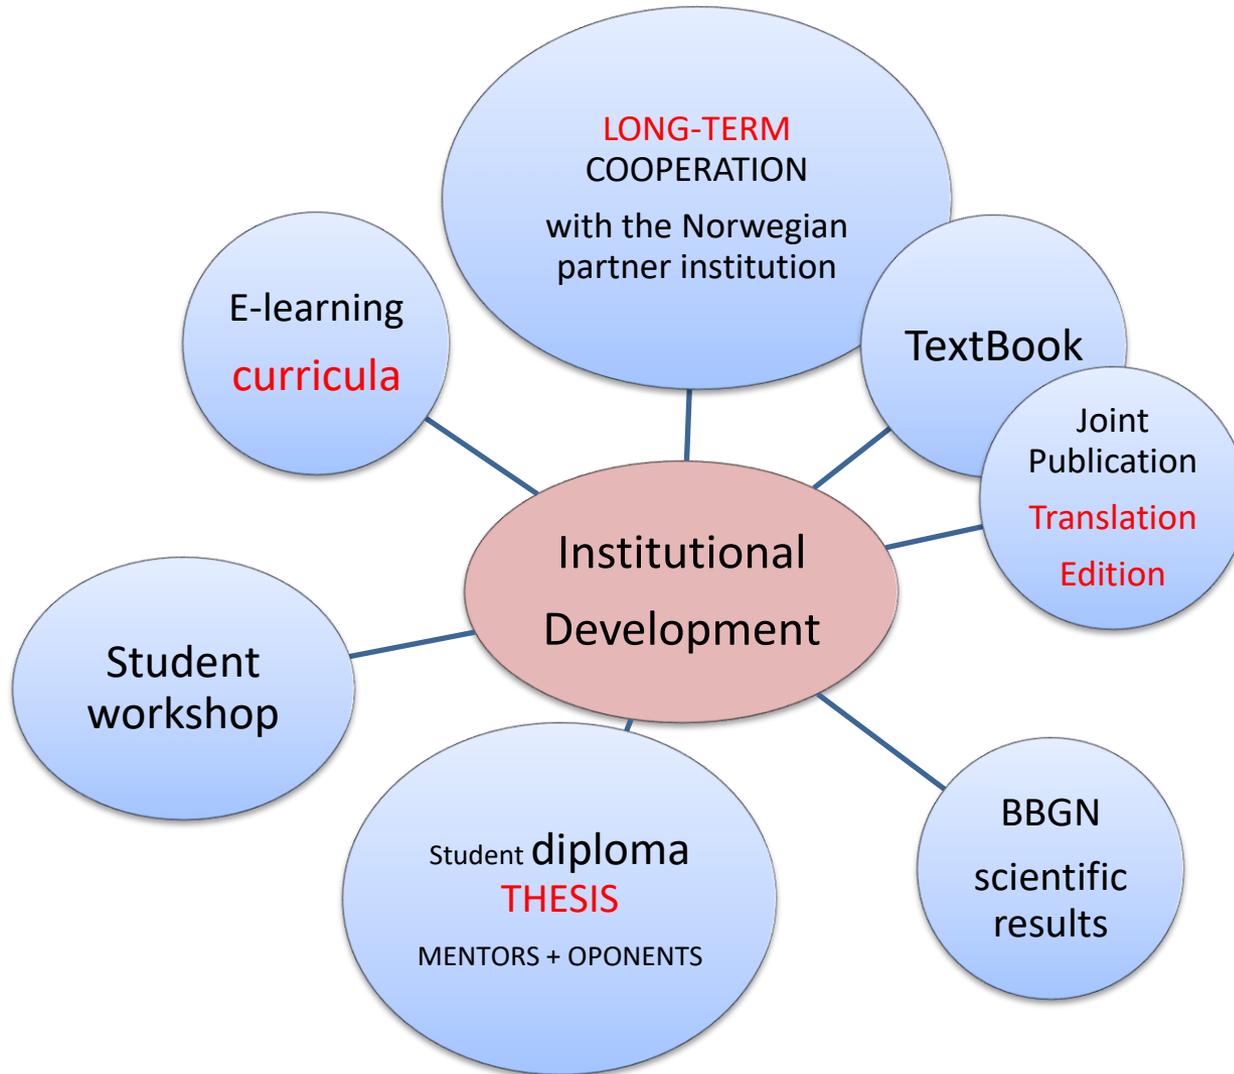

- MASARYK UNIVERSITY
- BRNO

2

- (UNIVERSITY COLLEGE  
TELEMARK)
- UNIVERSITY OF  
SOUTHEAST NORWAY
- BØ I TELEMARK

# Through active communication toward active citizenship

- "Language acquisition in the context of traditional and contemporary culture in Norway"
- Project between Masaryk University and Telemark University College (University of Southeast Norway)
- Mutual, very intense contact between our institutions during the project had several dimensions: lectures of experts from Norway and Czech rep, arranging joint workshop in Brno, preparation of joint publication at MU, preparation of a textbook related to project, joint activities concentrated on social, cultural, international and national challenges

# Goals and benefits

- Cooperation process of the tertiary education between Czech Republic and Norway
- Internationalization - an important item for the professional equipment of our students and graduates.
- Compact summary in the field of language acquisition, Norwegian literary traditions and contemporary culture and society life.
- Study curriculum enriched for bachelor and master: renewed, teaching methods actualized and inovated.
- **Human resources in the field of philology and humanities**
- **Experience with and reflexion on Norwegian cultural and democratic traditions.**

# Sustainable outcomes and implementation

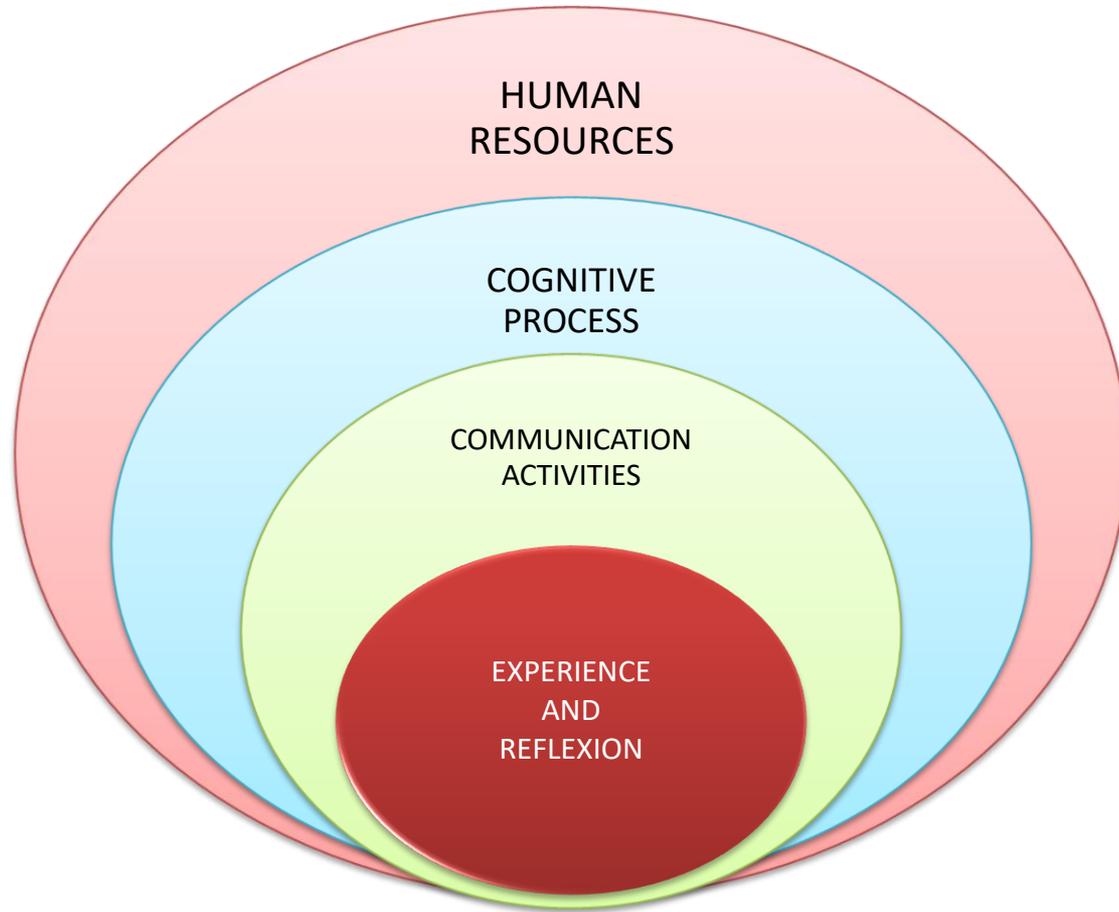

- Institutional project's sustainability is guaranteed through the existence and curricular program of Nordic and Scandinavian Studies section at the Faculty of Arts in Brno.
- The main expected benefit is an essential advancement of human resources in the field humanities and philology.
- The implementation of the project results at MU means to promote the experience with the Norwegian cultural and democratic traditions.
- The experience with the internationalization of the study profile for the participants can be a very important part of professional skills equipment for our students and graduates.

# Social sustainability

- Project participants (imatriculated students at MU) are men and women coming from various regions in Czech republic and Slovak republic, from all social classes.
- The implementation of the project results embrace a sustainable message and experience about the social and educational reality in contemporary Norway, about the discussions in Norwegian media etc.
- The main expected benefit is an essential advancement of human resources in the field humanities and philology - in the education quality and human profile advancement of our students at Masaryk University.
