- organising regular Round Tables about educational policy
- member of consulting boards

# OUR VISION OF SOCIETY

1

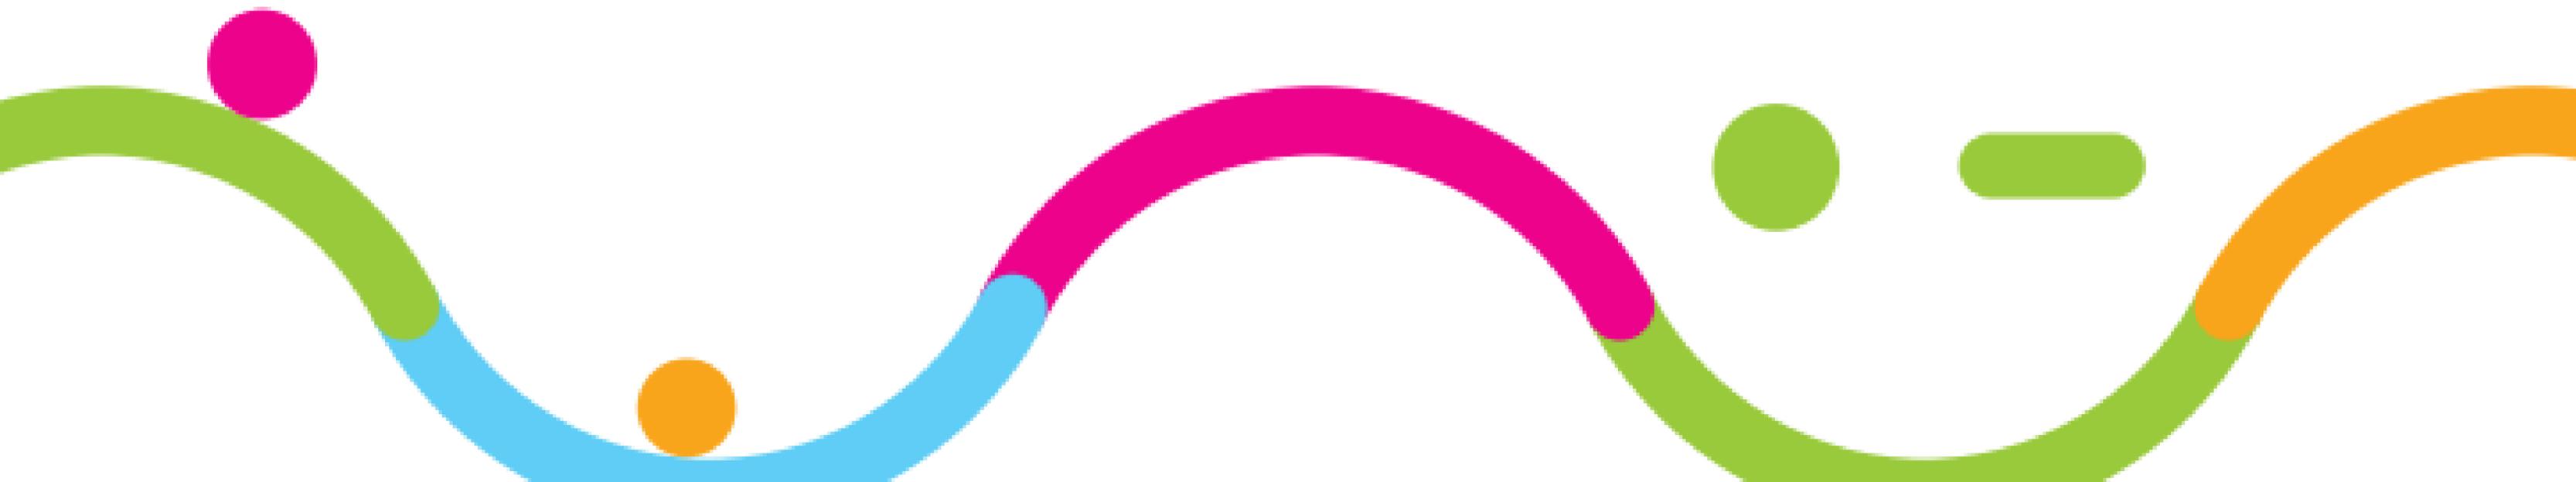

## **We strive for a society**

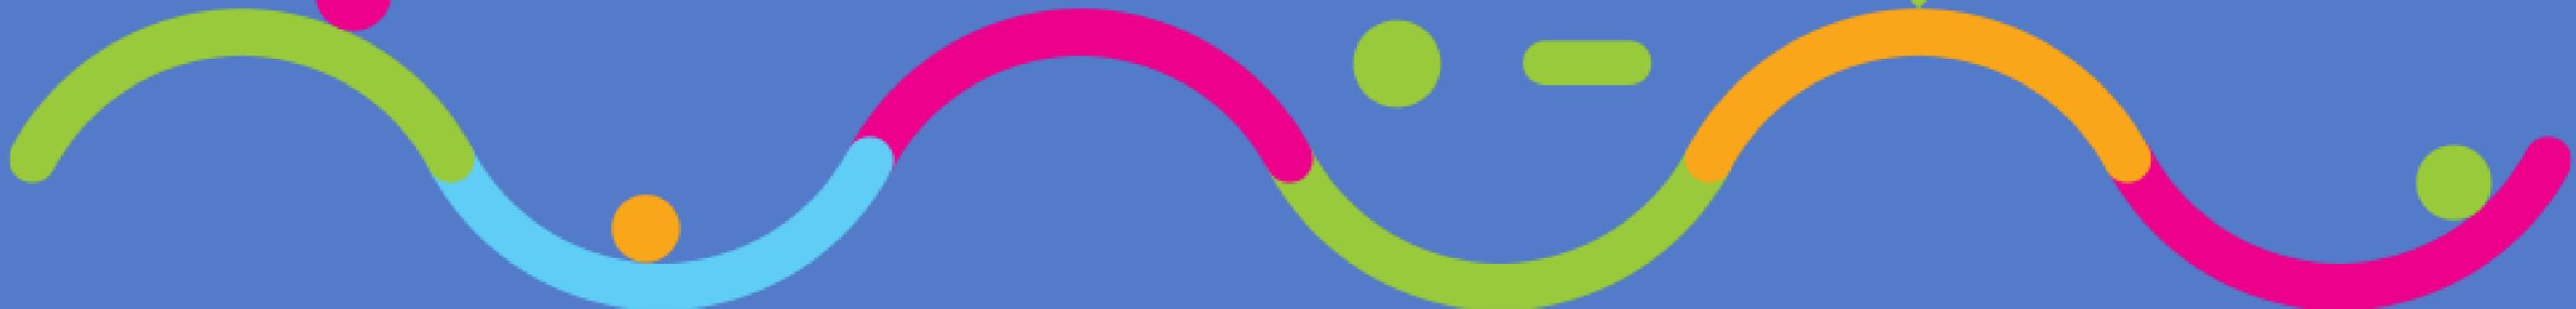

that is socially coherent, fair, considerate towards all living beings and the environment and that is based on freedom and responsibility of each individual.

Goals of the initiative Success for Every Pupil (since 2013, 200 org.)

- 1 To develop the potential of each pupil at all schools and evaluate how it works.
- 2 Create conditions for permanent pedagogical development of each school and each teacher.
- 3 To be good leaders and cooperate purposefully at all levels education system.

## LESSONS LEARNED

---

Success for every pupil is more acceptable than "inclusion".

Acceptance of the vision takes time.

Keeping attention and engagement of leaders is demanding.

It is a lot about building a trust among stakeholders.

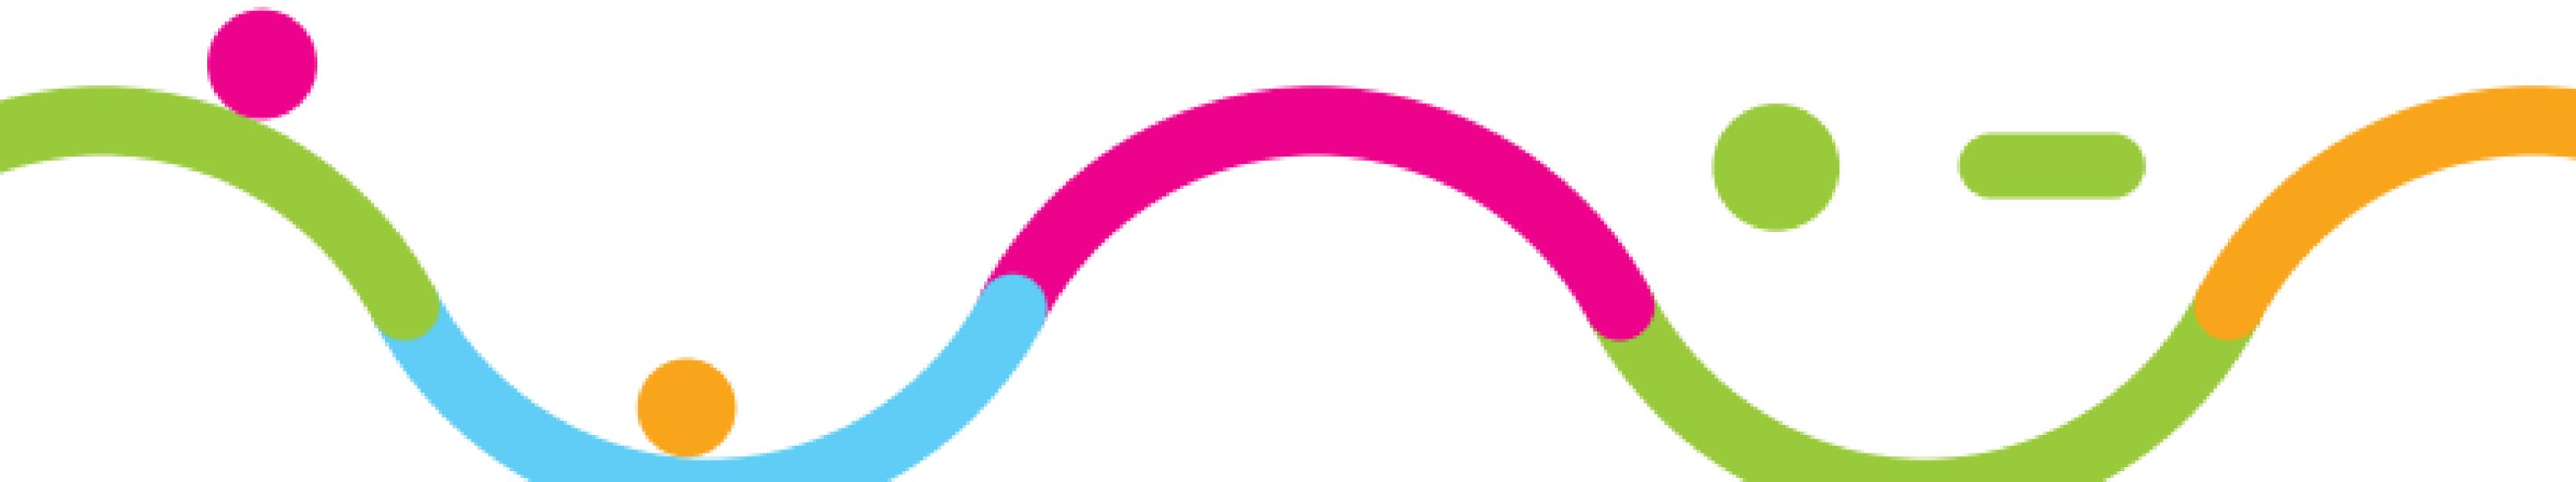

Community dimension is needed for development of an inclusive approach.

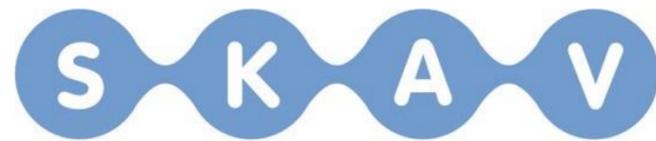

Impact on pupils is a challenge and key question is how to measure it.

What can help at this stage?

- 1 Synergy with other running initiatives.
- 2 Sustainable outcomes at the school level.
- 3 Co-operation with other schools and actors in the local community.
