

## Partner search proposal from the City of Ljubljana

City of Ljubljana is a very progressive city; among other rewards, it was also the Green City of Europe.

Ljubljana is eager to contribute its expertise to the **HORIZON-MISS-2026-04-CIT-01** call, specifically by involving its municipal public transport company to pilot innovative urban mobility solutions.

Ljubljana aims to:

- **Enhance** the efficiency and appeal of public transit and shared mobility.
- **Pilot** both technological (e.g., electrification) and non-technological urban solutions.
- **Develop** seamless, integrated multimodal services.

If you would like to partner with Ljubljana, please reach out to [asja.masnoglav@sbra.be](mailto:asja.masnoglav@sbra.be).
